

PROJECT PROFILE

Exhall Triangle Commercial Units, Coventry.

PROJECT DESCRIPTION

Long term client, Deeley Group, awarded M&T Midlands the groundworks contract to transform an open farmland site in Exhall on the north side of Coventry. The new development is made up of 10 brand new commercial units that boast the highest sustainability credentials.

Work started on site in February and saw us carry out significant amounts of clearance and groundworks to prepare the site for the construction of the units that range in size from 2,000 to 27,500sq ft. The scope of works also included the provision of road access to the site from the main highway.

In addition, we installed all site wide services including lighting and drainage to efficiently manage waste and surface water from around the estate.

Finishing off the project, over 4000m2 of concrete slabs were laid on the project and high quality associated external works were carried out to add the finishing touches to the scheme which was completed in November 2023.
